

A new state of the art play building at Martin Luther King Adventure Playground

Martin Luther King Adventure Playground

Martin Luther King Adventure Playground is one of Islington's most popular adventure playground sites and has been a key provider of play opportunities within the Borough for over 40 years.

To ensure this continues, the existing building which was demolished in 2018 having become unsafe and irreparable, will be replaced with a new state of the art play building. The new adventure play building will;

- be built using sustainable materials and modern construction methods
- be thermally efficient with a low operational carbon footprint
- create a healthy indoor environment with good air quality
- have lots of natural light to support wellbeing
- support and facilitate a range of indoor and outdoor free play activities
- be able to host activities for schools, children's parties & community events
- involve the local community in the design and construction process

Meet the architects on Thursday 18th March 2021

Our architects will be introducing the project and presenting their ideas at our first online discussion. Please, come along and tell us what you think.

Introducing the new Martin Luther King
Adventure Playground building

5pm

Book a place at:

Design your own building

Use this page to design a new adventure playground building. Use the handy tips to help make your new building sustainable and environmentally friendly!

Paint, collage, draw or use foraged materials that you've found outside!

You can share your ideas by posting them through the **Design Assistants Letterbox!**

TIP 01: Make your building energy efficient

Add lots of insulation to the walls and roof to reduce your buildings carbon footprint and keep it warm in the winter.

TIP 02: Use green energy to power your building

Capture renewable energy from the sun and wind by adding solar panels or a small wind turbine to your building.

TIP 03: Use sustainable construction materials

Specify natural materials that have low embodied energy (the energy required to produce them), such as wood or bamboo.

Have your say

There are a number of ways that you can get involved and share your views;

Get involved by returning the completed questionnaire and ideas board using the 'letterbox' at the entrance of the Martin Luther King Adventure Playground building.

By attending our first online event on Thursday 18th March 2021 (see front page for details).

Get in touch by contacting us at:
Email: info@islingtonplay.orh.uk
Web: islingtonplay.orh.uk

Alternatively, you can contact the architects at: Email: info@paperhouseproject.co.uk
Tel: 020 8049 7037

We'll be sharing ideas about the new MLK Adventure Playground building throughout the new year.

You can stay updated by signing up to our e-newsletter at: www.islington.gov.uk/stayupdated

If you would like this document in large print or Braille, audiotapes or in another language please call **020 7527 2000**

If you're unable to contact us digitally you can use the dedicated letterbox at MLK Adventure Playground!

About you

The information you provide us with will only be used by the council to improve our services and ensure that we have a range of responses from across our communities. This information will be kept in accordance with the Data Protection Act 1988 and used for monitoring.
